DETAILED ACTION

Following Office Action is in view of Applicant submitted IDS of August 29, 2003.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Kurachi (JP09161612; Applicant submitted).

Kurachi teaches a multiple switch device comprising:

a window operating switch 4 is single switch;

a selector switch 3 comprises a one switch knob for selecting each window and a position for disabling window (see figure of Kurachi);

the selector switch position comprising:

center window locking position;

a driver side position located to the right of the center locking position; and

a right rear window located to the right of the driver side position (see figure of Kurachi for the front passenger and the left rear window).

Allowable Subject Matter

3. Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2832

Claims 4-6 recite additional single switch knob and a push-button switch for disabling window operation. Such switch function is neither disclosed nor suggested by the prior art of record.

4. Claims 7-15 are allowed (see prior Action, dated June 2, 2003).
